# LACC EXTENSION PROGRAM

## ABOUT

**LACC Extension** engages the community to participate in lifelong multi-generational learning no matter what level of education students have previously received. Our classes provide individuals easy access to learning, both in the registration process and through our diverse offerings catered to meet the community's interests. Whether it's a gardening class, an acting workshop, or our apartment management series, LACC Extension is committed to making sure there are classes for anyone who is committed to learning and expanding.

## HIGHLIGHTS

- Our Pharmacy Technician Program provides an opportunity for students to get into a new career within 6 months
- Our Muay Thai Boxing class is very popular and a great workout
- We have been teaching the community how to swim for decades
- Classes for kids
- Classes in Spanish
- We offer the community classes they need and want on nearly any subject, at nominal costs

## CLASSES/PROGRAMS

**LACC Extension** provides a wide array of diverse offerings to the community, giving students the opportunity to build new skills or grow in the skills they already have. Many of the classes focus on enrichment, like sewing, dancing, exercise, or flower arranging. At the same time, a number of Extension classes are focused on developing new career-related skills and building on existing skills that will help students obtain employment or advancement. These offerings range from classes like QuickBooks, Photoshop, video editing, or a certificate program like Pharmacy Technician, a program that can lead directly to a new career. In addition, LACC Extension offers classes and programs for youth, including music lessons, sports instruction, swimming lessons, and summer camp.

## GOALS

**LACC Extension** strives to achieve the following program outcomes:

- Provide a broad range of offerings that contribute to the development of the surrounding community
- Employ qualified instructors with knowledge or skills specific to their topic of instruction
- Provide flexible, individualized offerings for entities or individuals upon request
- Provide instructional space that facilitates an effective, safe, and enjoyable learning environment for our offerings
- Deliver auxiliary support offerings for LACC's credit and non-credit programs and for student support services
