- continued -

1. DEVICE

- Please use a phone, iPad/tablet or computer device to record your video. You can use your phone's camera, or a program such as Zoom or Skype to record your video.
- Please record a video of yourself sending congratulatory wishes or an inspirational quote that is **under 30 seconds**. Record your message horizontally.

- Please keep your device still during recording.

2. LIGHTING

- Please film with your face pointed directly towards a source of light such as a window or lamp. We want to avoid shadows on your face.
- Natural lighting is ideal, facing a window.
- Example:

PHOTO #1: Not an Ideal Look – Uneven light, Shadows

PHOTO #2: Better Look – Even, Natural Light

3. AUDIO

- Please find a quiet room to record your video.
- If others are near you, please close the door so you reduce any background noise that might disrupt your video.
- Be near your recording device, so your audio doesn't sound too far away. Speak clearly and project (but don't yell).

4. BACKGROUND

- It's best to have a solid or non- distracting background such as a bookshelf.
- Avoid clutter behind you or showing anything personal that you don't feel comfortable displaying.
- Example:

clutter like this is a bad look
