

Please join us to see this prize winning documentary:

Tickling Giants is a documentary about Egyptian surgeon-turned-comedy-talk-show host **Bassem Youssef**, who has been hailed as the "Jon Stewart of Egypt" for starting a political satire show during and after the Egyptian Revolution. The documentary reveals how people at first embraced and later turned on him, calling for his arrest, imprisonment, and even execution. The movie could provoke conversation and research about the Arab Spring, comedy as a tool for dissent, and more. Monday, 5/15/17, at 5:00 PM in Chem 3.
