Subject: Summer Information

Welcome back to summer session. The last summer session that offered classes were in 2009 when 225 sections of credit classes were offered. This year LACC summer session, June 2013, has 201 credit classes. Thank you again for your participation in making Proposition 30 a reality at LACC.

For the past two months, I have convened meetings with campus Sheriff McKain, sheriff representatives, administrators, Information Technology, WEC representative, facilities staff, faculty and students in regards to the two campus emergency situations that occurred at LACC regarding a suspicious package. From these discussions and debriefing sessions there are two themes identified:

1. The need to get out clear and concise information to the campus on any incident as quickly as possible. To continue to send information as deemed necessary to maintain safety. We have updated our Blackboard Connect to include all faculty, staff and administrators with their campus phone numbers. Please make sure you log in and give your phone number where you wish to be reached with a text, voicemail or email that is different from your work phone number.
2. The need to provide training to students, faculty, staff and administration on the different types of emergency response is needed in regards to a suspicious package or bomb and an active shooter event. Therefore, we have scheduled CERT trainings on June 24, 25, & 26 in the Student Union Center. Training is also scheduled for August of 2013, especially for faculty members whose teaching assignment this summer does not allow for participation in the June training. Active shooter training will occur on July 2, 2013 at 3:30 PM in the Student Union. Plans to include some safety training during flex week are also in progress.

For Student Success, we need a safe environment. For this to occur, students, faculty, staff and administration must feel secure on their campus. Your participation in upcoming events, planning and informational training sessions are vital.

Sincerely,

Renee' D. Martinez
